The teachers use the projector for explaining tha topic.
Teacher speaking softly to students

The first is that when the papers are coming closer then there should be practice papers.

Our second thing is that there should not be any other work during the practice paper days so that we can study with focus.

If our is like this then there will be growth of student along with college and our real paper will also be easy

1. College /Institute must provide proper books to all the students
2. Institute must provide better projectors for the animation study
3. Teachers must concentrate individually towards each backlogs student's.

Not much Suggestions are needed to improve the ovarall teaching
Because the learning experience is very good for me
