**CERTIFICATE COURSES**

In today's world, lack of proper education and training restrict people from the opportunities for self-advancement by limiting their access to well-paid employment. Eventually, this prevents such individuals from making an influential contribution to economic growth. Thus, adequate education quality and training are recognized as fundamental ways of breaking down the eco-system of poverty. Skill development is no longer a matter of choice. It is imperative to adapt, survive and succeed.

Skill development is a vital tool to empower people, to safeguard their future and for the overall development of an individual. It is an important aspect that enhances employability in today's globalization. Skills are as essential as one's academic status. Education and skill should now go hand in hand. They are the roots behind the economic growth and community development of a country.

In this context, the acquisition of education and skills can lead to industrial advancement, economic diversification, innovation, technological evaluation, and overall development of the country.

Taking into consideration the importance of the "Skill Development Course" our college started Short Term Certificate Courses for the students who are studying at graduate level. Eight Certificate Courses are introduced in the Academic Year 2022-2023. Details of Certificate Courses are shown in the table attached herewith.

- Maximum 20 student capacity for each course
- Choose only one certificate course at a time.
- Fees Rs. 100 (One Hundred only) including Examination fees.
- Commencement of Course from 1<sup>st</sup> Oct. 2022.
- Teaching method (Class Room Teaching, Practical. Online Video, Youtube Video, etc.)
- Separate WhatsApp Group for each Certificate course for communication.
- Total Teaching Hours 30 ( Including Theory & Practical )
- The Tentative Exam Date is in the First week of January 2023.
